

# THE BRITISH SHELL COLLECTORS' CLUB

## Index

Newsletter 1972 – 1983  
Pallidula 1984 – 2016 (April)

The first Newsletter was published in October 1972, and this name persisted until 1984 when the current name of Pallidula was introduced. An index of the first 50 issues was compiled in 1982 by David Feld.

Reviews of Club meetings are not included.

### *This index is in several sections*

<b>Author index</b>	listing of all articles (except Book reviews) in alphabetical order of author.
<b>Shell families</b>	articles dealing with a particular family of shells or an individual shell, listed in alphabetical order of families. All Fossils and all Land shells are listed under those headings.
<b>Shell collecting</b>	articles talking about collecting in particular countries are listed under the broad geographical area, and then by the specific area.
<b>Other articles</b>	all articles which do not fall into one of the above categories, listed in topic order; the classification of some topics of necessity rather arbitrary!
<b>Book reviews</b>	two lists, first in Author order and then in Title order.

Judith Nelson has kindly made available to the Club Secretary a set of all issues of the Newsletter and Pallidula, which have been photocopied for Club archives. Copies of individual articles can be obtained from Secretary for £1 per article (including postage).

The entire archive is also in digital format. This scanning was done by the chairman, Simon Taylor, in 2014. The archive is available to club members only, at a price of £10.
